### About This Game

Warning: Contains mild cartoon violence

A stickman reality is a short interactive storytelling experience.

We have been trying to make contact with the stickman world for a long time. The last 3 people we sent in haven't returned. They seem simple life forms with advanced technology. This is all we know about them.

We have found a portal where they slowly merge with our world. But be careful, don't let your intentions be known!

Move around in their space, interact and behave as normally as you can! Play along and hopefully, you can get us some more information than your predecessors.

Wish you luck!

{THE GAME USES SPATIAL AUDIO SO CHECK YOUR HEADPHONES BEFORE PLAYING}
