[Windows 7: From April 2019 'SHA-2-Support' Is Required](#)

The screenshot shows a web browser window displaying a Microsoft blog post. The browser's address bar shows the URL: techcommunity.microsoft.com/t5/Windows-IT-Pro-Blog/How-to-get-Extended-Sec.... The page header includes the Microsoft logo and a 'Sign In' button. The main content area features the title 'How to get Extended Security Updates for eligible Windows devices' and a date '10-17-2019 09:00 AM'. The text of the post includes an update: 'Update 11.26.2019: Windows 7 Extended Security Updates (ESUs) will be available via the Cloud Solution Partner (CSP) program beginning Monday, December 2, 2019. To purchase Windows 7 ESUs through a CSP, please contact a CSP partner. If you are a partner and need details on procuring Windows 7 ESUs through the Partner Center, see [Purchasing Windows 7 ESUs as a Cloud Solution Provider](#).' Below this, there is a paragraph explaining the transition from Windows 7 to Windows 10 and the importance of security updates during this period.
